

KAJEET® SENTINEL® INSIGHTS SUCCESS STORY

Infuriant: Enabling Network Continuity for Five Guys

Infuriant Technology Solutions customers like Five Guys leverage Kajeet LTE Failover connectivity solutions to ensure business and operational continuity when an unexpected primary outage occurs. Kajeet's IoT management platform, Sentinel®, provides an advanced data analytics suite, called Insights, that turns large amounts of structured and unstructured data into actionable intelligence for better decision-making.

Sentinel Insights allows Infuriant customers to:

- Troubleshoot issues faster & more efficiently
- Evaluate cost optimization & plan performance
- Conduct dynamic cohort analysis
- Identify outliers & other behavioral trends that impact their organization
- Apply policies & actions to optimize their business
- Create easy to understand reporting to the entire organization
- Drive better, more informed decision-making

"The launch of the real-time Sentinel Insights analytics platform is an incredibly valuable addition to the Kajeet product portfolio. Our clients, such as Five Guys, have a voracious appetite for real-time analytics across all areas of their business operations, down to accurately predicting the number of pickles needed in each location on a daily basis."

Dennis David, *President of Infuriant Technology Solutions*
